Govt Pro: No. 12845-55 / R1356 D 3rd February 1894, passing orders regarding the remission of compulsory contributions for Irrigation Works costing less than Rs 25,000/— In this order the Dy Commrs and the Examiner Public Works Accounts were directed to submit lists of contributions which were not struck off with reasons for not striking them off and the Dy Commrs were requested to publish a full explanatory order in Canarese to the effect that the balances of contribution have been or will be struck off and to assure Govt that this precaution against illegal levy of such contribution has been taken.

The Dewan's queries on this order are —

(1) Were the lists called for received ?

(2) Have the Dy Commrs replied

replied that the precaution mentioned above is taken ?

——— o ———

The Examiner, P. W. Accounts, submitted a list with his letter No. 3021[x] dy 2nd October 1894, in which the balances to be wiped of the books were shown as follows —

GOVERNMENT OF MYSORE

Proceedings of the Government of Mysore

No. 12845-55 / R. 1356, dated, Bangalore, 3rd February 1894.

R 7 52 N 94

Order.— With reference to proceedings of Government in the public Works Department, No. 1769-89 — 320-40, — dated 1st April 1892, abolishing the levy of Compulsory Contributions for Irrigation Works Costing less than Rs 25,000, and directing that all balances of Contributions then outstanding may be wiped off the books, Deputy Commissioners of Districts and the Examiner, public Works Accounts, are requested to submit lists of such Contributions which have not been struck off with reasons for not striking them off.

Was this received?
H. K. S.
30. 6. 99

2. During the Dewan's recent tour, several cases in which such contributions have not yet been formally remitted, came to his notice; in other cases, it seemed that the remission had not been communicated to the parties originally liable for the contribution. Such a state of things is calculated to give subordinate officials an opportunity for illegally levying the remitted contributions in whole or in part. The Deputy Commissioners are accordingly requested to issue immediately a full explanatory order in Kanarese, in every case in which the contribution has already been struck off the books in the Revenue or public Works Department, or will hereafter be so struck off, to cause copies of every such order to be duly delivered to the parties

liable to pay the contribution remit-
-ted and to be posted up in conspi-
-cuous parts of the Chavadies of the
villages in which they reside. This
precaution is essential to prevent-
illegal levy by subordinate officials
with a view to misappropriation, and
the Government wish to be assured
from every District, within a fort-
-night from this date, that this
precaution has been taken as regards
all contributions already struck off
under the orders above quoted.

Have they complied?

Sir,

With reference to Government Order (9)
No: 4242-6 dated the 12th instant forward-
RH 62-95
-ing for information an extract from the
statement of Irrigation Works costing
Rupees 25,000/ and more, sanctioned sub-
-sequent to December 1896 and for which
acreage contribution is leviable, I have
the honor to state that in the case of the
Jailodu tank, Pavagada Taluk, the first
Estimate for its restoration amounted
only to Rupees 15,706/- and that the second
Estimate (Rupees 19,956), which included
the first, was also within the limit of
Rupees 25,000/ prescribed in Government
Proceedings no 1769-89/320-40 (1) of the 1st April 1892.
Unfortunately, however, after the work
had been almost completed and the tank
was on the eve of being handed over to the
Revenue authorities, the bund was washed
away in the same place where the old breach

had occurred. The estimate framed for filling this breach for the second time, provides for an additional expenditure of Rupees 7577/ and will bring the total expenditure to Rupees 27,533/-. It will thus be seen that, though the sum of the three estimates for one and the same improvement work, amounts to more than Rupees 25,000/, the circumstances which necessitated the third estimate do not justify the levy of acreage contribution under the principles laid down in the Proceedings of the 1st April 1892 above quoted. I beg, therefore, that the tank in question may be removed from the list of tanks of which acreage contribution is leviable, as, if the work done under the second estimate had not been accidentally washed away, there would have been no necessity for applying the orders of 1892 to this case.
